## Practicing Sleep Medicine as a Dentist: What the Dentist and Team Need to Know

*Alumni Reception, Dinner and Dance*

Morgantown Marriott at Waterfront Place  
Morgantown, WV

APRIL 28, 2018

*Alumni Picnic*

Krepps Park, Morgantown, WV

*Dr. Clarence C. and Maxine Davis Cottrill Endowed Lecture Presents:*

## Practicing Sleep Medicine as a Dentist: What the Dentist and Team Need to Know

Dr. Bailey is a general dentist with a practice limited to the management of Sleep Related Breathing Disorders (Snoring and Sleep Apnea) utilizing oral appliances as well as Temporomandibular Disorders, Orofacial Pain and related headaches. He is a graduate of Indiana University School of Dentistry and completed a General Practice Residency at Miami Valley Hospital in Dayton, Ohio. He is a past president of the American Academy of Dental Sleep Medicine (1998-1999), is the founder and past-chair of the Oral Appliance Section and served on the Standards of Practice Committee for the American Academy of Sleep Medicine. He frequently lectures both in the US and internationally and has authored numerous articles and chapters on the topic of Sleep Medicine and on the use of Oral Appliances by the dentist for the management of snoring and sleep apnea.

Dr. Bailey is currently the Past-President (2013-2014) of the Colorado Sleep Society and was the chair for the Sleep Medicine Committee for the American Academy of Orofacial Pain from 2012 to April of 2016. He has Diplomate status in the American Board of Orofacial Pain and in the American Board of Dental Sleep Medicine and is a Fellow in the Academy of General Dentistry and the American Academy of Orofacial Pain.

### **COURSE DESCRIPTION**

The dental team is becoming more involved in the recognition and management of patients with a sleep disorder, especially a sleep breathing disorder (snoring and sleep apnea). It is important for the dental team to understand the role they may have as part of the overall health care team. The first step is recognition that a patient may be at risk for a sleep disorder and this is best accomplished with screening: from the history to the review of the medical history to the use of standard questionnaires. This can be done by anyone in the dental office. The role of the dental team in the management of a sleep breathing disorder most often involves the use of an oral appliance. Recognizing the wide variety of oral appliances that are available and how to derive the most optimum outcome leads to the highest level of patient care.

### **TARGET AUDIENCE**

This course is recommended for the entire dental team.

### **REGISTRATION**

Please submit your online registration and credit card payment at [ce.wvu.edu](http://ce.wvu.edu), or complete the attached registration form and return by April 20, 2018, to the WVU Office of CE along with your check payment. Registrations received by April 20, 2018, will be confirmed via email.

### **CREDIT**

The WVU School of Dentistry is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

The WVU School of Dentistry designates this activity for 6.5 continuing education credits.

Participants are cautioned about the potential risk of using limited knowledge when incorporating new techniques and procedures into their practices.

Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at [ADA.org/CERP](http://ADA.org/CERP).

### **DISCLOSURE**

All those in a position to control content of this program have indicated that they have no relevant interests to disclose.

### **COURSE OBJECTIVES**

Following this lecture-based course, participants should be able to:

- recognize when a patient may be at risk for a sleep disorder and what that might be
- identify the health and medical conditions related to a sleep breathing disorder that dentists will encounter
- recognize the role of the dentist, as well as the staff, as it relates to the management of sleep breathing disorders and how to best interface with our medical colleagues
- discuss the use of oral appliances and be aware of the many designs that are available

### **SCHEDULE**

Friday, April 27, 2018

7:30 am	Registration, Breakfast, Exhibit Visitation
8:30 am	Session I
10:00 am	Break/Exhibits
10:15 am	Session I continued
12:00 pm	Lunch
1:00 pm	Session II
2:30 pm	Break/Exhibits
2:45 pm	Session II continued
