West Virginia University School of Dentistry in cooperation with the Office of Interprofessional Education and Office of Continuing Education presents:

A Certified Tobacco Treatment Training Program (CTTTP)

THREE-DAY COURSE
Wednesday, May 19, 2021
Thursday, May 20, 2021
Friday, May 21, 2021

West Virginia University Health Sciences Center (WVU HSC)
One Medical Center Drive Morgantown, WV

This program will be provided virtually, unless large group restrictions due to COVID-19 are suspended or no longer in effect.

West Virginia University School of Dentistry in cooperation with the Health Sciences Center’s Office of Interprofessional Education is recognized nationally/internationally as one of twenty-three Tobacco Treatment Training Programs and is certified by the Council of Tobacco Treatment Training Programs (CTTTP). Professionals in the fields of medicine, dentistry, social work, pharmacy, nursing and public health will present evidence-based strategies to enable attendees to effectively assist their patients/clients/communities with tobacco cessation.

A National Certificate in Tobacco Treatment Practice is a collaborative effort among the Association for Tobacco Use and Dependence (ATTUD), the Council for Tobacco Treatment Training Programs (CTTTP), and the Association for Addiction Professionals (NAADAC). **One requirement for achieving national certification includes the successful completion of an accredited training program such as the WVU CTTTP.**

COURSE DESCRIPTION
Throughout the Tobacco Treatment Training Program, lectures, role-playing and case presentations will be utilized to discuss pharmacological and counseling interventions with patients interested in tobacco cessation. The case presentations will involve patients with relatively healthy medical conditions to patients having multiple medical problems. Alternative nicotine delivery methods such as the electronic cigarette, smokeless tobacco and more recent products will be discussed. This three-day course provides continuing education for multiple health care providers (see page 3).

LOCATION
This program will be provided virtually, unless large group restrictions due to COVID-19 are suspended or no longer in effect.

SCHOLARSHIP OPPORTUNITY ON PAGE 2

1
SCHOLARSHIP OPPORTUNITY
Eligibility Criteria: To be eligible for the CTTTP Scholarship ($660) interested individuals must provide a ≤ 300-word Personal Statement with your:

• Current employment position.
• Personal interest in tobacco cessation as it applies to implementation of a program in your community, institution or work place.
• Application of tobacco cessation into your own patients’/clients’ care.

Submit to the link below for scholarship application. Applications are reviewed upon receipt, and there are a limited number of scholarships remaining

The West Virginia University School of Dentistry in cooperation with Health Sciences Center Office of Interprofessional Education acknowledges financial support for scholarships from the following sources:

COMPUTER HARDWARE AND SOFTWARE REQUIREMENTS
System Requirements
• Internet connection – broadband wired or wireless (3G or 4G/LTE)
• Speakers and a Microphone – built-in or USB plug-in or wireless Bluetooth
• Webcam or HD Webcam – built-in or USB plug-in
• HD cam or HD camcorder with video capture card

Supported Operating Systems
• macOS X with macOS 10.7 or later
• Windows 7, Vista with SP1 or later, XP with SP3 or later

Supported Tablet and Mobile Devices
• Surface PRO 2 running Win 8.1, Surface PRO 3 running Win 10
• iOS and Android devices

Supported Browsers
• Windows – Google Chrome 30+, Firefox 27+, IE 11+, Edge 12+
• Mac – Google Chrome 30+, Firefox 27+, Safari 7+
TARGET AUDIENCE
This course is recommended for physicians, physician assistants, dentists, dental hygienists, nurse practitioners, nurses, pharmacists, social workers, respiratory therapists, licensed professional counselors and other health care providers that encounter tobacco using patients/clients.

CONTINUING EDUCATION APPROVAL
Physicians: 25.5 hours
Nurses: 30.5 contact hours
Nurse Pharmacology: 4.8 hours
Dentists and Hygienists: 25.5 ADA CERP credits
Pharmacists: 24.5 contact hours
Social Workers: 24.5 hours
Respiratory Therapists: 29.3 hours
Licensed Professional Counselors: 24.5 hours
Addiction Counselors: 24.5 hours

LOCATION
This program will be provided virtually unless large group restrictions due to COVID-19 are suspended or lifted.

REGISTRATION
Please submit your online registration and credit card payment at: http://ce.wvu.edu/tobacco-treatment/ or complete the attached registration and submit with your payment to the WVU Office of CE.

CANCELLATIONS
If you are unable to attend the conference after you have registered, you must notify us by the end of the business day on April 21, 2021 to receive a full refund. After April 21, 2021 a refund minus a $100.00 non-refundable deposit/registration fee will be charged. No refunds for conference fees will be made after the close of business on May 17, 2021.

ADDITIONAL INFORMATION
For more information on the content of this course, please contact Dr. Susan Morgan at smorgan@hsc.wvu.edu or 304-293-1154. For registration information on this or other upcoming CE conferences, contact the WVU Office of CE at 304-293-3937, visit our web site at ce.wvu.edu or e-mail us at ce@wvu.edu.

COURSE OBJECTIVES
Following this course, participants should be able to:

1. Tobacco Dependence Knowledge and Education: State clear and accurate information about tobacco use, strategies for quitting, the scope of the health impact on the population, the causes and consequences of tobacco use.

2. Counseling Skills: Demonstrate effective application of counseling theories and strategies to establish a collaborative relationship, and to facilitate client involvement in treatment and commitment to change.

3. Assessment Interview: Conduct an assessment interview to obtain comprehensive and accurate data needed for treatment planning.

4. Treatment Planning: Demonstrate the ability to develop an individualized treatment plan using evidence-based treatment strategies.

5. Pharmacotherapy: State clear and accurate information about pharmacotherapy options available and their therapeutic use.

6. Relapse Prevention: Offer methods to reduce relapse and discuss ongoing support for persons with tobacco dependence.

7. Diversity and Specific Health Issues: Demonstrate competence in working with population subgroups and those who have specific health issues.

8. Documentation and Evaluation: Describe and use methods for tracking individual progress, record keeping, program documentation, outcome measurement and reporting.

9. Professional Resources: Utilize resources available for client support and for professional education or consultation.

10. Law and Ethics: Consistently use a code of ethics and adhere to government regulations specific to the health care or worksite setting.

11. Professional Development: Assume responsibility for continued professional development and contribute to the development of others.

__________________________________________

Additional Questions in reference to the conference (and unrelated to registration) should be directed to Dr. Susan Morgan at 304-293-1154 or smorgan@hsc.wvu.edu

WVU is an EEO/Affirmative Action Employer. Underrepresented class members are encouraged to apply. This includes: minorities, females, individuals with disabilities and veterans.
Continuing Education Credit

MEDICINE
The WVU School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The WVU Office of CME designates this live activity for a maximum of 25.5 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

PHARMACY
The West Virginia University School of Pharmacy (WVSoP) is accredited by the Accreditation Council for Pharmacy Education (ACPE) as a provider of continuing pharmacy education (CPE). This application-based activity (UAN: 0072-9999-20-001-L04-P) is approved for a total of 24.5 contact hours (2.45 CEUs) of CPE. Wednesday’s session (optional program) is an application-based activity (UAN: 0072-9999-21-002-L01-P) and approved for a total of 8.0 contact hours (0.8 ceus) and there is no CE credit for The E-Cigarette Research activity.

WVU SoP will report your participation in the activity to NABP CPE Monitor within 4-6 weeks for all participants who successfully complete the program. Successful completion of the entire program includes attending all sessions each day (partial credit will not be given), signing the daily attendance sheets, completing a certification exam with a pass rate of 80%, and completing an online evaluation form(s). Successful completion for Monday only includes attending all sessions (partial credit will not be given), signing the daily attendance sheet, and completing an online evaluation form. Transcripts of CPE can be printed from NABP CPE Monitor. If needed, statements of attendance may be printed at https://pharmacyce.wvu.edu/user/login.

NURSING
This continuing education activity has been provided by the WVU School of Nursing 30.5 contact hours. Of the total hours earned, 4.8 will be in the area of pharmacology consistent with advanced pharmacology / pharmacotherapeutic competencies of advanced practice nursing. The WVU School of Nursing is an approved provider of continuing education by the State of West Virginia Board of Examiners for Registered Professional Nurses, Legislative Rule #19CSR11-4 under provider number 50-26086.

DENTISTRY
The WVU School of Dentistry is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. The WVU School of Dentistry designates this activity for 25.5 continuing education credits.

Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at ADA.org/CERP.

Participants are cautioned about the potential risk of using limited knowledge when incorporating new techniques and procedures into their practices. This is a lecture-based course.

SOCIAL WORK / LICENSED PROFESSIONAL COUNSELORS / ADDICTION COUNSELORS
The WV Board of Social Work approved this course for 24.5 hours under Provider #499999. Approved for 24.5 continuing education hours by the WV Board of Examiners in Counseling #535. Approved for 24.5 hours by the West Virginia Certification Board of Addiction and Prevention Professionals.

RESPIRATORY THERAPY
The West Virginia Board of Respiratory Care has approved this course for 29.3 Contact Hours (CEUS) under the provider number BORC 18-20-002.

Presenter Biographies
Alexander, Linda, MEd, EdD, received her doctorate in Counseling Education and completed a Postdoctoral Fellowship on Cardiovascular Epidemiology funded by the NIH. Her research portfolio includes exploring the relationship of tobacco on disparate health outcomes in underrepresented minority communities. She was a founding member of both the NCI’s Tobacco Research Network on Disparities (TReND) and the Network in Bio-behavioral Pathways in Cancer (NBBPC). She has served as a Guest Editor for two special supplements on menthol for the journal, Addiction. Data from the menthol supplement was included in the FDA's testimony on the potential harm of menthol as an additive in cigarettes, and as part of Regulatory Science. She was the Senior Volume Editor for NCI’s Tobacco Control Monograph Series for Monograph 22, which focused on tobacco-related health disparities. She currently serves as the Senior Associate Dean for Academic Affairs and Professor at the WVU School of Public Health.

Blank, Melissa, PhD, (not presenting in 2021 due to sabbatical) received her doctorate in Experimental Psychology and completed a post-doctoral fellowship at the Moffitt Cancer Center. Dr. Blank has been a primary instructor for both undergraduate and graduate psychology-based courses for nearly 15 years, including courses such as Health Psychology, Clinical Psychopharmacology, and Advanced Neuroscience. Material within these courses has covered the physiological and neurological mechanisms of substance abuse, as well as various behavioral, social, and cognitive theories posited to explain this maladaptive behavior. For nearly 20 years, Dr. Blank has conducted human-based research on the determinants and consequences of nicotine/tobacco use. She has given many lectures on aspects of nicotine/tobacco use, such as nicotine addiction, harm reduction, cessation behavior, and use of alternative products (e.g., water-pipes, electronic cigarettes, cigars, smokeless tobacco). She is currently on the faculty of the WVU Department of Psychology.

Barrickman, Ashley PharmD, BCACP, CTTS is a Clinical Assistant Professor and Director of Skills Development for the WVU School of Pharmacy. She coordinates and teaches skills throughout the pharmacy curriculum, as well as other ambulatory care topics. She also precepts advanced pharmacy practice experiences for academic teaching rotations. Dr. Barrickman provides patient care at Chestnut Ridge Center in the Thought Disorders clinic, including tobacco cessation and other medication counseling.
Douglas, Ashley BS, (presenting for Melissa Blank) received a bachelor's in Psychology from the University of Central Missouri. She is currently a doctoral student in the Behavioral Neuroscience program at West Virginia University. She studies nicotine/tobacco use under the supervision of Dr. Melissa Blank.

Duckworth, Adrienne, APNP, CTTS, completed her Dental Treatment Training through the Mayo Clinic in 2016. She currently is a nurse practitioner in the Department of Medicine, West Virginia Cancer Institute.

Gaydos, Suann, MSHD, NCTTP, completed her dental hygiene degrees (BSDH/MSDH) from West Virginia University, where she is employed as a professor and senior clinic supervisor in the Department of Dental Hygiene. Suann was trained as a Tobacco Treatment Specialist in 2010 through the Mayo Clinic in Rochester, Minnesota and has been involved in presenting tobacco treatment continuing education programs both locally and nationally. She serves as co-coordinator for the WVU School of Dentistry Certified Tobacco Treatment Program.

Morgan, Evan, MD, NCTTP, completed his Tobacco Treatment Specialist Training from the Mayo Clinic in 2017. In 2012, he graduated from the Internal Medicine Residency Program at the University of North Carolina. Currently, he is a Hospitalist at United Hospital Center in Bridgeport, WV.

Morgan, Susan, DDS, MAGD, NCTTP, received her dental hygiene degrees (BSDH/MSDH) and dental degree from West Virginia University. For approximately 10 years she treated low-income children, many of whom were addicted to tobacco products. In 2017, she wrote the accreditation document resulting in WVU School of Dentistry becoming the first dental school in the nation to house a certified tobacco treatment training program.

Offert, Mark, PhD, RRT, FAHA, FAPS is an Associate Professor in the West Virginia University School of Medicine. He is the Director of the Clinical & Translational Sciences PhD Program in the Robert C Byrd Health Sciences Center, and serves on the executive committee at WVU Center for Inhalation Toxicology. He received his Doctorate of Philosophy degree in Physiology from Loma Linda University, Loma Linda, California in 2000. His post-doctoral training in pulmonary physiology was performed at University of California San Diego, School of Medicine, Division of Physiology. Dr. Offert maintains a clinical and translational research laboratory that is currently investigating the toxicology and pathophysiology of acute and chronic exposure to engineered nanoparticles as well as electronic cigarette aerosol. His work has been featured in several local and national news reports, including NBC Nightly News, 1-hour documentary on CNBC and CBS Morning News. Dr. Offert is an active member in the American Physiological Society (APS), Society of Toxicology (SOT) and the Microcirculation Society (MCS). He currently serves as Councilor to the Cardiovascular Toxicology Specialty Section in SOT and the Allegany-Erie SOT Regional Group. He serves on three journal editorial boards (including Handling Editor for European Journal of Applied Physiology), and served as ad hoc member on several national (e.g. NIH, NASA, NSF) and international (UK, Switzerland, Ireland, Italy) scientific review panels, including standing member on the Lung Basic Science Review Panel in the American Heart Association, and the Musculoskeletal/Orthopedic Rehabilitation Research & Development (RRD2) Review Panel for the Veterans Health Administration.

Panagakos, Fotinos, DMD, PhD, MBA, received his DMD from UMDNJ-New Jersey Dental School (now Rutgers University School of Dental Medicine) and his PhD in Biochemistry and Molecular Biology from UMDNJ-Graduate School of Biomedical Sciences (now the Rutgers University Graduate School of Biomedical Sciences) in 1992. In 1999, he received his Master’s in Education from Seton Hall University and in 2007 he received his Master’s in Business Administration from Lehigh University. Dr. Panagakos served as a full-time faculty member at New Mexico Dental School, as Associate Director for Colgate Palmolive Oral Care Clinical Research Department and Vice President of Geistlich Pharma. Currently, he serves as Interim Dean at West Virginia University School of Dentistry.

Patel, Rusha, MD, trained as an otolaryngologist at the University of Utah Hospital, and she completed fellowship training in head and neck cancer surgery at the Medical University of South Carolina. Her daily clinical experience is mainly dealing with head and neck cancers, many of which are caused by tobacco exposure. She counsels patients on tobacco risks and cessation practices. She also is involved in in the changes of tobacco related cancers and screenings. She currently is an assistant professor in the WVU School of Medicine.

Piechowski, Kara, PharmD, BCPS, CTTS, is an internal medicine Clinical Pharmacy Specialist at WVU Medicine, Ruby Memorial Hospital. She is the WVU Medicine PGY2 Internal Medicine Pharmacy Residency Director, Past-President of the WV Society of Health-System Pharmacists, and leads the Breathe Well, Live Well tobacco cessation group class. Areas of clinical and research interest include tobacco cessation, diabetes management, and transitions of care.

Siebert, Judith, MS, RD, LD, CDE, CTTS, was trained by the Mayo Nicotine Dependence Center and is a Certified Tobacco Treatment Specialist. She is actively involved with smoking cessation programs for patients at the WVU Family Medicine Clinic.

Sowards, Ashlee, RDH, BSDH, MSHD, NCTTP, received her master’s in Dental Hygiene from West Virginia University, with her Dissertation Title being, “Oral Cancer Screening Techniques Utilized by West Virginia Dental Hygienists.” In April, 2013 she completed her Tobacco Treatment Specialist training at the University of New Jersey School of Medicine and Dentistry. As a clinical supervisor for third-year dental hygiene she provides the students with the skills necessary to talk with their patients about tobacco dependence and offer cessation support. She is currently on the dental hygiene faculty at WVU School of Dentistry.

Swager, Lauren, MD, NCTTP, is board certified in child, adolescent and general psychiatry. She has participated in the treatment of adults and adolescents with a variety of addictions and substance use problems. She received her medical degree at West Virginia University and completed her post graduate residency and fellowship at the University of North Carolina. She is an associate professor in the Department of Behavioral Medicine and Psychiatry, at the WVU School of Medicine and serves as the Division Chief of Child and Adolescent Psychiatry.

Tack, Frankie, MS, AADC, CCS, NCC, CTTS, is a Clinical Assistant Professor and Coordinator of the CEHS Multidisciplinary Studies Program, CLS Minors, and Addiction Studies Minor in the Department of Counseling and Learning Sciences at West Virginia University. She has worked and taught in the addiction field for over twenty-five years. Her areas of special interest include families affected by addiction and tobacco use disorder. Frankie is a West Virginia certified advanced addiction counselor, a certified clinical supervisor, and a certified tobacco treatment specialist.

Trickett Shockey, Aleinda (Cindi), DHSc, MA, BSDH, RDH, CHS-IV, CTTS, CNTA, received a Doctor of Health Sciences degree from Nova Southeastern University while holding a Masters and Bachelors from WVU. As a smoking cessation counselor for the American Lung Association through Freedom from Smoking, Teens against Tobacco Use and Not on Tobacco, she, also, successfully authored and administered the first 100% West Virginia Clean In-Door Air regulations (with and without exemptions). All were tested in the court system and upheld. She is certified as a Mayo Clinic Tobacco Treatment Specialist and has authored/co-authored several articles regarding tobacco use within various populations and venues. She is a professor at the WVU School of Dentistry while remaining very active in the expansion of tobacco use cessation and clean in-door air regulations.

Whetsel, Tara, PharmD, BCACP, BC-ADM, CTTS, is a Clinical Associate Professor and Ambulatory Care Clinical Pharmacist at the WVU School of Pharmacy. She coordinates and teaches Self-Care, provides lectures on tobacco cessation and other ambulatory care topics, and precepts introductory pharmacy practice experiences and advanced pharmacy practice experiences. She completed the Rx for Change Clinician-assisted Tobacco Cessation training program at UCSF and continues to use this program to educate students, pharmacists, and patients on tobacco cessation. Dr. Whetsel provides patient care at Family Medicine-Cheat Lake Physicians and Milan Puskar Health Right Clinic including tobacco cessation counseling among other medication and disease state management programs.

Young, Scott, DDS, CTTS, graduated from the WVU School of Dentistry and has been actively involved in teaching and clinical treatment of patients. He co-directs the treatment planning course for dental students and is involved in the changes/updates of the electronic health record. He received his Tobacco Treatment Certification from the Mayo Clinic.
