COURSE INFORMATION

OVERVIEW

WISE will feature a comprehensive demonstration and review of various endoscopic procedure techniques and technology to benefit general and therapeutic gastroenterologists, surgeons, nurse practitioners, fellows, endoscopy nurses, and technicians. Multiple live procedures combined with extensive discussions will demonstrate cutting-edge advances in luminal endoscopy - third space, bariatric and surgical endoscopy, EUS, and ERCP. WISE will also feature various lectures by leaders in the field of endoscopy and dedicated fellows and nurses' sessions with intensive hands-on training to help them improve their skills and stay up to date with the latest techniques and technologies.
