Subject: Practice Gap - 2020 Ophthalmology Pearls
Date: Tuesday, December 17, 2019 12:58:05 PM

Contact Name *	Kim Ebert
Contact Email *	ebertk@wvumedicine.org
Program Title *	2020 Ophthalmology Pearls
Program Date/Range: *	January 24 (PM) , 2020 – January 25 (AM), 2020
Type of Program *	conference
Knowledge needs improvement / change: (The participants don't know "what" to do...) *	Yes
This course will help participants improve or change knowledge related to:	Recent updates on 1) retinal dystrophies therapy, 2) trachoma as a blinding disease, 3)diplopia & strabismus after ocular surgery, 4) presbyopia correcting IOLs, 5) options for minimally invasive glaucoma surgery, 6) educating the residents, 7) inherited retinal diseases, 8) scleral lenses, 9) maculopathy, and 10) anti-VEGF therapy
Competence needs improvement / change: (The participants don't know "how" to do it...) *	Yes
This course will help participants improve or change competencies in the following ways: *	1) use newer retinal dystrophy therapies, 2) use ways to stabilize diplopia and strabismus after ocular surgery, 3) use better options for glaucoma surgery, 4) use scleral lenses in some corneal issues, 5) use 14 Anti-VEGF therapy
Performance needs improvement / change: (The participants "just don't" do it, for some reason...) *	Yes
This course will help participants improve or change performance in the following ways:	1) more effective ways to treat retinal dystrophies, 2) use the best approach to treat diplopia & strabismus after ocular surgery, 3) apply difference techniques in medical education, 4) choose the best option for glaucoma surgery, 5) identify where scleral lenses are appropriate, 6) determine the best IOL selection for specific cases,
Will the educational objectives reflect these desired changes? *	Yes
Is this activity designed to improve patient outcomes? *	Yes
If so, how? *	By being aware and using better way to treat and diagnosis eye diseases, there is a less diseases that will cause

blindness, less patient discomfort, and better quality of life.

Check the needs documentation that you used in selecting these topics. Attach documentation as described. *

- review of literature (attach reference list or article)
- current research (attach reference list, articles, or description)

Why does this Gap between current and desired practice exist?

As ophthalmology becomes more and more specialized, physicians concentrate on their own sub specialty. Because of clinics, surgery, and educational duties, many physicians do not have time to review all the new updates on diagnosis, technology, and treatments in all sub specialties.

How will this activity help close the practice gap / fix the identified problem(s)?

Bringing together eye physicians & surgeons in one venue, each one can present new updates on their different sub specialties. This conference will allow an exchange of knowledge from all sub specialties of ophthalmology to all physicians.

This activity should improve:

- Competence
- Performance
- Patient Outcomes
