Program Title *	WVAP Annual Meeting
Program Date/Range: *	10/03/2020
Type of Program *	conference
Knowledge needs improvement / change: (The participants don't know "what" to do...) *	Yes
This course will help participants improve or change knowledge related to:	Utilizing a new classification system for the reporting of salivary tumor cytology that was developed by a consensus panel in Milan
Competence needs improvement / change: (The participants don't know "how" to do it...) *	Yes
This course will help participants improve or change competencies in the following ways: *	The differential diagnosis of papillary breast neoplasms will be presented in a case-based approach to clarify common issues that arise in consultation practice. Specific features will be highlighted in order to prevent common errors.
Performance needs improvement / change: (The participants "just don't" do it, for some reason...) *	Yes
This course will help participants improve or change performance in the following ways:	Applying the 2016 WHO classification for hematopoietic neoplasms to low-grade myelodysplastic syndromes remains problematic due to the many overlapping features with various benign cytopenias. Morphologic, cytogenetic and molecular features will be presented in order to help participants more effectively apply the criteria in ambiguous cases.
Will the educational objectives reflect these desired changes? *	Yes
Is this activity designed to improve patient outcomes? *	Yes
If so, how? *	More accurate diagnosis, more appropriate therapeutic direction
