36th Annual Symposium

Just What the Joint Commission Ordered! **An “Ethics Process” to Address Conflict**

May 17, 2024

Stonewall Resort, Roanoke, WV

8:00 a.m. - 4:00 p.m.

Office of Continuing Medical Education
West Virginia University School of Medicine

Course Description

Conflict is at the heart of cases in which ethics consultation is requested. This 36th annual symposium of the West Virginia Network of Ethics Committees will tackle conflict head on! Our keynote speaker, Haavi Morreim, JD, PhD, academician, attorney and active mediator, has over 30 years of experience in resolving conflicts in healthcare settings as both an ethics consultant and a mediator. She runs the Center for Conflict Resolution in Healthcare and is a highly sought after speaker at national meetings. In addition to giving the keynote address, she will participate in the two panel discussions of cases fraught with conflict and indicate how mediation could have helped. One entails disagreement over whether to proceed with tracheostomy and long-term mechanical ventilation in an adolescent with neurologic injury, and the second involves conflict between siblings over who should be making end-of-life decisions for their comatose mother. Haavi will describe how mediation skills can expand the toolkit of ethics consultants, reduce the tensions inherent in conflict, and forge mutually agreeable plans among disputing parties! In addition, the symposium will address common issues that arise in the ethical and legal care of patients: 1) applying the West Virginia Health Care Decisions Act to patient care; 2) identifying the essential elements of an informed consent discussion to achieve true shared decision-making and patient-centered care, and 3) evaluating whether principlism is sufficient to analyze and resolve conflicts in ethics consultation. As always, WVNEC strongly encourages audience participation--the symposia are lively and thought-provoking. Please bring your questions and tough cases for discussion!

Objectives

At the conclusion of this activity, participants will be able to:

1. Summarize why mediation is an effective approach for ethics consultants to resolve conflict;
2. Apply the West Virginia Health Care Decisions Act to ethical and legal issues that arise in patient care;
3. Evaluate the strengths and weaknesses of using principlism as an ethical theory to guide ethics consultation;
4. Specify the elements of shared decision-making necessary for patient-centered information; and
5. Analyze cases in which there is conflict using WVNEC's 7-step process of ethical decision-making.
