Course Objectives

At the conclusion of this course, participants should be able to:

- Discuss new approaches being translated into identification, diagnosis, and treatment of select cancers
- Identify the utility and limitations of new therapeutic approaches for the treatment of cancers

Lecture Objectives

A.M. Objectives

- Analyze the role of survivorship care integration in improving patient outcomes across the cancer continuum
- Determine strategies to align survivorship research, clinical practice, and policy to support sustainable, patient-centered care models
- Describe the role of high-dose chemotherapy in the treatment of newly diagnosed multiple myeloma
- Describe the role of immune effector cell therapy with CAR-T cells and genetically engineered NK cells in relapsed/refractory multiple myeloma
- Describe developments in MR-tracking technology as well as MR-guided brachytherapy for cervical cancer
- Identify new clinical trial options for Myelodysplastic Syndromes

P.M. Objectives

- Describe the risks and benefits of surgery in sarcoma and recognize the limitations of surgery
- Describe the key functions of integrated health system specialty pharmacy services in oncology, including clinical coordination, access facilitation, and therapy monitoring
- Recognize the impact of integrated specialty pharmacy services on oncology patient outcomes
- Describe CRTEC requirements to be competitive for NCI Designation and discuss how CRTEC efforts are developing in the WVU Cancer Institute
- Describe the epidemiology and diagnostic classification of MPAL and recognize the prognostic challenges, particularly the poor survival outcomes in adults and elderly patients compared to children
- Discuss current treatment limitations and the lack of prospective clinical trials guiding therapy for MPAL
- Evaluate the rationale, design, and potential clinical impact of the ongoing investigator initiated phase II study of subcutaneous blinatumomab in CD19+ MPAL, across newly diagnosed, MRD-positive, and relapsed/refractory cohorts
